Re: Action on Healthcare problems

Dear Congressman McClintock,

I wrote at the end of December but sent my letter by snail mail so you may not get it for a few weeks. However, in the meantime an excellent Op-Ed appeared in the NY Times entitled *The Health Care Plan Trump Voters really want*. It is thoughtful so I have enclosed it for your consideration.

I have written a letter to Georgetown Gazette picking up on the theme on your website where you urge constituents to write to you regarding their experience with the ACA. My hope is they will continue to share with you their experience with the uncertainty and potential chaos that may ensue from repealing the ACA but without having something to replace it.

As with your resignation from the Freedom Caucus over proposals to take actions based on doctrine without thoughtful consideration of the benefits and consequences, I hope you will be a voice for good government policy and process even if it isn't the path I, as a democrat, would prefer.

Sincerely,

Jerry Scribner
