Honorable Senator Sinema:

Nothing is more precious to me than my right to vote. I am 78 years old and have never missed an election whether it be a local school board election, the mid-terms or the presidential election. A free and fair election is the backbone of our democracy.

Frankly, I find it quite disturbing that you, and Senator Manchin, are holding the rest of not only the Democratic Party, but our nation, hostage. Your unwillingness to budge on the filibuster presents an imminent threat to America's democracy.

I urge you to waive the filibuster rule for fair voting legislation. As you well know this can be done by a simple majority vote. And it is YOUR vote that is needed. As it is done for judicial appointments, it must be done for Voting Rights Legislation.

This is urgent. It cannot wait. Nothing else from infrastructure to climate change to health care matters if we do not have equal and fair access to the ballot box.

This is a wake up call!

Sincerely,

Penny S. Scribner
